**LIVE**

## LIVE BETTING ON VIRTUAL FOOTBALL IS NOW REAL

Realistic AI play between chances to give illusion of normal match flow

Games lasting between 25-30 minutes including 5 minute half time interval

Statistics updating in real time

### Player Experience

- Place bets on all available markets after game has begun
- Between 14 & 19 goal chances per game

- Odds updated immediately following each goal chance and betting re-opened
- Completed markets settled immediately after relevant action with payment made to winning players straight away

## MAGELLAN FALCON HIGHLY CUSTOM-MADE OPTIONS

### Technical features

- Displayed on 2 screens
- Time interval to display each screen within a carousel
- Interval between each event – minimum of 5 minutes is recommended

- Choice of markets – no minimum or maximum markets
- UI designed around markets required
- Market over-rounds – customisable RTP for markets
